Govt. Publications Student Assistant
Oct 2016 to Feb 2018
San Francisco State University

Coding Blocks
Web Development Teacher Assistant
Mar 2016 to Jun 2016
Coding Blocks, New Delhi

PROJECTS

Dash.ly
- Modern adaptation of the type-racing game
- Used Oxford Dictionary API to fetch millions of words and filtered them on the basis of their length.
- Used Rapid.io real-time database which made it easier to build complex user interfaces.

Med Fuse
- Internet of Things project to connect the doctor to its patients seamlessly using a button.
- Built a solution to a major medical issue called medication adherence.
- The button connects to the web interface and sends a text notification using Twilio API.

Em.io
- Web application that pulls tweets, analyzes them using IBM Bluemix Alchemy API that evaluates the emotion of tweets.
- Uses Geolocation to plot the tweets on Google Maps

ACTIVITIES

Association for Computing Machinery ·
Officer - Tech Team leader
Aug 2016 to Current
- Point of communication for anything related to technology and design.
- Built branding assets for the community.
- Developed the official ACM@SFSU website.

Incubed SFSU · Director of Technology / Developer　Nov 2016 to Current
